Team Meeting Outline (for un-officiated events)

NOTE: If not all teams play in the opening draw, it may be necessary to hold more than one team meeting. This will usually only occur during preliminary events.
- You should have already checked with the icemaker to ensure the ice is going to be ready for the scheduled start time.
- Be aware that all participants attend the team meeting. Remember there could be new players or experienced players that may not have all the information regarding this particular event. Stress any specific rules and requirements of your particular event/club.
- The Competition Chairperson will be in charge of instructing teams of the following information:
 - Inform participants that all NBCA policies apply and will be enforced.
 - Practice time will begin 20 minutes before game start time.
 - Coin toss prior to practice will determine practice order.
 - Inform participants that they should cool down their sliders and may take one slide without a rock.
 - Each participant may throw two rocks down and two rocks back. Once all 8 rocks have been returned to the house, one player is to throw the Last Stone Draw (LSD). If the LSD is thrown through the house or short of the house, a second and subsequent attempt may be made by an alternate participant. (2nd throw will come into effect ONLY if the opposing team also throws short or through the rings...185.4 measurement) Measurement is to be performed by the on site Umpire or House Committee designate. The purpose of the LSD is strictly to determine hammer.
 - The Competition Chairperson will remind the players that if an Umpire is called to make a ruling, it is because teams are unable to come to a decision and, as such, are asking for a third party decision. Teams then need to accept that decision.
 - All measurements are to be completed by a Host Committee designate. Ruling is to be agreed upon by both teams.

Each Host Chairperson will be provided with the name and contact information of their NBCA Event Liaison and, if applicable, Chief Umpire.
